into the expediency of reporting a bill giving free dom to every human being, and interdicting slave ry wherein Congress has the constitutional power

This resolution was voted for by WIL-LIAM HELMICK and fifty-nine other Black-Republican Members of Congress. We will now see whether the Republicans who are professedly for letting slavery alone where it exists will denounce or back up Mr. HELMICK in voting for this resolution.

After this we thing the Republican party will be foolish to attempt to deny the identity of Republicanism and the blackest kind of Abolitionism. This vote shows the pure sectionalism of the North ern Republicans. They are ready to en ter heart and hand into the "irrepressible conflict," and are as willing as Jone BROWN or HELPER to trample upon the rights of the States and the guarantees o the Constitution.
